AL-QAIDAH NAZRA-QURAN

FOUNDED ON **EASY RECITE ARABIC (ERA)** TRANSLITERATION;
CUSTOM-BUILT **ARABIC SCRIPT FOR INSTANT NAZRA-QURAN.**

For your very vital wish or need, to be a nice *Nazra-Quran* reader and a nicer *Nazra-Quran* teacher on a suitable Arabic script, **Easy Recite Arabic (ERA) Transliteration** is your God Granted Gift. For more pleasure and pride, please read on.

For 14 centuries, **Nazra skills** had been taught to us, Non Arab learners and readers, under the Curriculum and Tuition Terms of Arabic scholars / skilled teachers, on Arabic scripts, not specifically structured for *Hifz*, *Tilawah*, *Nazra* or Recitation purposes.

During the last century some teachers accepted the difficulties of their students learning *Nazra* skills on usual Arabic scripts. To meet their *Nazra and Hifz* needs, they put them on **Non-Arabic Transliterations**, to create / produce Arabic pronunciations.

To play against above trend, a Pure-Arabic-Transliteration was prayed for. It was to teach *Nazra* skills to all Ease-Loving and Less-Industrious learners, readers and teachers, under new, innovative, visible, practical and beneficial Choice Terms.

This **Multi-Merit Al-Qaidah** is very friendly to learners and readers, who like to reduce their effort, time, tension, frustration, faults and errors and also to slow and shy teachers, who have a responsibility to train their learners, to render nice *Nazra-Quran*.

This **Custom-Built Al-Qaidah** may not quickly lure some **high skilled Qaris**, who are well versed on the old scripts. It is due to the Inherent Inertia. Yet, to teach and train their 'Dummies if any' they may well utilize *Al-Qaidah Nazra-Quran*.

During my training of *Nazra-Quran* skills and later, I **prayed to have a Qari** to **Pre-Tell** me, an 'Exact Audio Conduct for each **Letter** and **Diacritic**' and a 'Final Recital at each **Stop-sign** (*Waqf*),' to help me deliver my *Nazra* easily, rightly and confidently.

Gracious God granted me my prayers. Then, I begged **Him** to incorporate His Granted Qari into an Arabic Text, to enable me, a slow learner and a shy teacher, to create an Instant Nazra-Quran. Once again, my **Gracious God** accepted my prayers. **He** blessed Muslim mankind with the **Easy Recite Arabic (ERA) Transliteration**.

ERA Transliteration offers full utility as a skilled *Qari* (as a GPS). It **Pre-Tells** 'an audio-conduct at each Letter / Diacritic' and an 'Final Recital at all *Waqf* spots.' Besides, ERA does not use the routine 120-150 alphabetic symbols. It works with '30 *Nazra*-designed and *Nazra*-friendly symbols' uniquely meeting most *Nazra* needs.

ERA Script offers all blessings of Arabic scripts. ERA plays just fine, against Non-Arabic Transliterations. It offers all their comforts. ERA is a **Trend-Setter for Today & Tomorrow**. It is a **2-in-1 Arabic Script**. It merits your Attention, Interest and Evaluation!

ERA Transliteration replaces the traditional training of *Nazra* Quran, with simple and fool-proof practice, for many types of teachers, readers, learners and the ‘dummies.’ It is Top Easy to **Teach**, Instant Ready to **Read** or **Recite** and Lot more Easy to **Learn**.

Now I explain, argue and justify 2 inspiring innovations of ERA Transliteration.

1. **Reg:** [Arabic Letters and their Nazra-Conducts in Nazra-Quran](#)

Total number of letters in the Holy Quran is about 323,000. Each letter, in its own sequence, creates only one audio-conduct or an audio-behavior, out of the following 3:

- a) It **Speaks Singly**: It does not start a pair of 2 letters. It joins to No-Next letter.
- b) It is **The First letter in a Pair**: It Speaks and Blends to the Next / Second letter.
- c) It is a **Silent** or **Non-Spoken letter**: It is jumped over and ignored in *Nazra*.

Through 14 centuries, the readers of Holy Quran were always risked to find or pick one audio-conduct for each and every letter, before its *Nazra*-delivery. All these exercises or ‘**Mental Transliterations**’ had to be done by readers for all 323,000 letters.

If **323,000 conducts** of letters were pre-found and pre-told to them, **then Nazra** learning, reading and even teaching efforts would have been awfully reduced. **Yes / No.**

ERA Transliteration found out all 323,000 conducts, sorted them into 3 types (of a, b and c above) and displayed them in Black, Green and White colors, to be dealt / read under following Formulae. So, ERA abolished all 323,000 Mental Transliterations.

> **Thus, a prime portion of Nazra-Syllabus got decreased and diminished.**
[Out of all 19 letters in *Bismillah* above, only 13 (6 Green + 7 Black) letters are recited.]

2. **Reg:** [Arabic Waqf signs and their Ultimate Nazra-Pronunciations](#)

Waqf signs did not exist in original Arabic script. All these signs, their Rules and long Exercises were added into *Nazra*-Syllabus, just to prevent every one; “**Not to read**, what is seen there; **But to read** a Substituted Version, or What was not shown there.”

Getting the right ability, to find a right *Nazra*-Variation at each *Waqf* sign, was terribly tedious and required long lasting exercises, even longer than one’s own life.

If **Ultimate Nazra-Pronunciation** at each *Waqf* was pre-known and shown in text / print, **then their** learning and reading efforts and errors will be fully finished. **Yes / No.**

ERA Transliteration has fully freed all of us from all *Waqoof*, except an *Ayah* sign.

>> **Thus, the biggest block of old Nazra-Syllabus got also sent into history.**
[With all *Waqoof* removed, many do **Nazra** more **precisely, pleasantly and proudly**. To know other innovations and the made-easies, please visit: www.EasyReciteArabic.org]
