

Welcome to:

**New ERA NAZRA Quran, Presented in
Easy Recite Arabic (ERA) Transliteration.
'Truly Ready for NAZRA' as 'An Instant Recitation'**

1. Arabic Scripts are made 'More & More Easily-Readable,' in time.

وَلَقَدْ كَسَّرْنَا الْقُرْآنَ لِلذِّكْرِ

Above verse, from the Holy Quran, has been recreated in an oldest Arabic script. Arabs can read it easily. But most non-Arab Muslims can not read it easily. Nor they can NAZRA on this text. As a necessity, all Arabic lettering, writing and scripts were modified and innovated, to make them more easily readable by all.

In good time, *Nuqtajat*, *Iraab*, *Jazm* and *Shadda*, were added to Arabic scripts. So, the above verse, now being more easily readable, is shown below:

وَلَقَدْ كَسَّرْنَا الْقُرْآنَ لِلذِّكْرِ

2. Transliteration is another way, to facilitate the NAZRA Quran.

In spite of above easier-to-read Arabic script, some teachers of NAZRA Quran thought Arabic scripts, to be tedious and tough text to be taught. Hence, to teach NAZRA Quran, they would re-write Arabic verses into Roman-Arabic-Transliteration (RAT) and carry on. Above verse duly transliterated into RAT, is shown below.

Wa laqad yas-sarnal Qurana liz-zikri.

With this way out, many kinds of transliterations have been replacing sacred Arabic scripts, to serve NAZRA needs of the Muslims. Transliterations make colossal claims to facilitate and accelerate NAZRA through 'Truly Ready-to-be-Read' and 'Fully built-in' arrangements. Many easy going Muslims consider transliterations as an added method for NAZRA Quran. Thus, they adopt and advocate it religiously.

Still, many Muslims oppose transliteration into the non-Arabic letters. **Therefore**, to bring the Transliteration-fans back to sacred Arabic, the new-found Arabic script must possess and offer all comforts and merits of transliterations, in it.

3. Easy Recite Arabic (ERA) Transliteration has '2 Faculties in 1.'

Neither a Holy Quran 'Special for Recitation', was ever offered to Muslims. Nor a Holy Quran was 'Totally Transliterated into Arabic Letters', in the past.

Allah^{sbt} showed me a 'Sweet Reality' in Arabic script. That is, '**Each Arabic letter** is either a 'Talk Alone letter' or it 'Speaks and a Starts a Pair' or it is just a 'Silent (non-spoken) letter.' This simple fact is the seed of success for all of us.

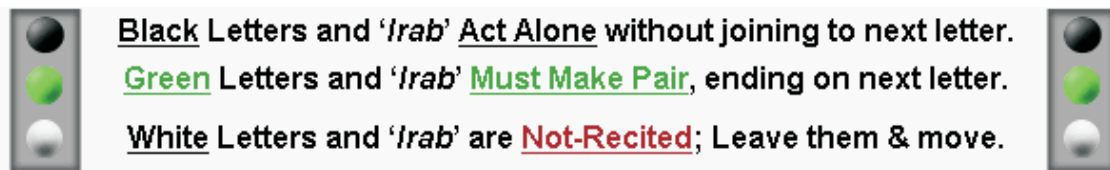

Next, I found out An-exact-task for each and every letter in the Holy Quran. Then, to **indicate** each 'Talk Alone letter' to the readers, I color them **Black**. And, to **show off** each 'Speaking plus Pairing letter,' I display them in **Green**. And, to **hide** all 'Silent letters' from reader's view, I show them Empty/Colorless. Very clearly, each letter 'Shows its own NAZRA Task,' instantly to the readers.

ERA Transliteration has a similar utility / function, as a GPS. Now, what is the main utility / function of a GPS, as related to an ordinary (car) driver? [The driver may be of low IQ, an ease-loving, not very keen or just a dyslexic.]

At each crossroad, a driver has 3 options: Right turn; Go forward or do a Left turn. **At each junction GPS pre-tells** the driver just one option, to act upon. Then, all drivers' risk in making one's own decision at each junction is finished. **This is why**, all drivers admire, advocate and insist to exploit the utility of a GPS.

Similarly, at each letter ERA pre-tells one recital job, to be acted upon. Then, the total liability of **ERA** readers, to make decisions, is eliminated for ever. **This is why**, all readers admire, advocate and are adamant to utilize **ERA** utilities. Above verse (shown in RAT) is shown below, in **ERA Transliteration** in 3 colors.

وَلَقَدْ بَشَّرْنَا الْقُرْآنَ لِيُبَدِّلَ خَلْقًا مِّنْ هَٰؤُلَاءِ

[3 Cues can assist current readers, but beginners must start with ERA *Qaidah*.]

3 Cues stated above, cut 70% of Rules of Recital and 90 % of labor and errors. So, **ERA Transliteration** is '**Truly Ready for NAZRA**' & '**An Instant Recitation**'

A Brief for Teachers and Current Readers of Holy Quran

Most teachers and readers of Arabic Holy Quran already know:

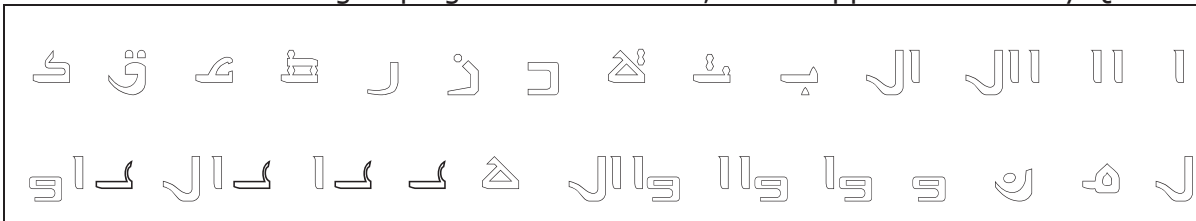

1. 3-6 symbols per Arabic letter, that are used in common Arabic scripts.
2. 1-5 diverse commands are ordered by each *IRAB* of the Arabic scripts.
3. All Arabic letters, either **Speak singly** or **Speak and start a pair** (of 2 letters) or **Become Silent**, during one's recitation.
4. Readers have total responsibility and risk to pre-judge only one option per letter and only one option per *IRAB*, during their Recitation.

Two **ERA** innovations concerning letters and *IRAB*, assist all readers, as under.

I. Only 30 symbols / shapes act for all Arabic letters, in ERA Quran.

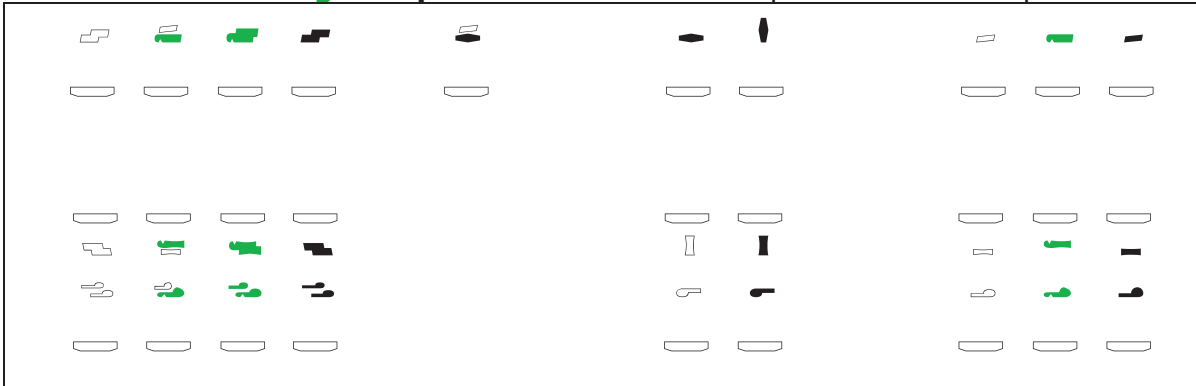

1. **A black letter** 'speaks singly' either 'alone' or as a 'second letter' of a pair.
 2. **A green letter** speaks and also pairs with a black / green 'second letter.'
 3. **A hollow letter** is a silent letter. Skip non-speaking letters and go ahead.
- Please look at 26 groupings of silent letters, which appear in the Holy Quran.

II. ERA *IRAB* convey each Command explicitly and clearly to readers, as under:

1. **A black *IRAB*** affects its own black letter, and no more.
2. **A green *IRAB*** affects its own green letter and blends to 'second letter.'
3. **A hollow *IRAB*** is non-effective. Just leave it behind and move ahead.
4. **The black or green portion of each *IRAB*** performs its own part.
